STORY AND CHARACTERS

Hey, listen up! It's me, Wario! Yeah, I know you'd never know it, since I'm wearing this great disguise!

It's all part of my new scheme to get rich! I was watching this stupid TV show about a master thief called The Silver Zephyr, when I had the brilliant idea to break into the show and take it over!

So after I invented a helmet that got me into the TV, I crashed the scene of the crime caper, landed on the head of the show's star, and stole his magic wand. How's that for breaking into the big time?!

WARIO

After our garlic-obsessed hero steals Goodstyle, Wario turns himself into a master thief who uses disguises to help him steal everything in his path. But what he wants more than anything is the all-powerful Wishstone!

GOODSTYLE

This distinguished wand makes his master into a Master of Disguise! The more gems he eats, the more transformations he can offer his owner!

COUNT CANNOLI

The star of The Silver Zephyr becomes Wario's nemesis after he loses his wand and his TV show to Wario!

GAME CONTROLS

1 So you gonna play this game or what?! Make sure your Nintendo DS is turned off and then insert your **Wario: Master of Disguise Game Card** into the DS Game Card slot until you hear a click.

2 When you turn the power on, the screen shown to the right will appear. Once you have read and understood the text, tap the Touch Screen.

3 On the DS Menu Screen, tap the **Wario: Master of Disguise** panel to start the game.

• If you have your Nintendo DS start-up mode set to Auto, you can skip this step. See the Nintendo DS Instruction Booklet for more information.

In this manual, a screenshot with a blue frame indicates game play on the top screen, while one with a red frame shows game play on the Touch Screen.

Tap the letters on the Touch Screen to name your file. When you're done naming your file, tap . If you make a mistake, tap to erase. If you can't decide what your file name is, just pick your real name, nickname...or whatever!

Saving Your Game

Use the hat-shaped switches to save your game. The game will also save on its own whenever you finish a chapter or after you check out the coffee-table book . It's what us famous game designers call an auto-save feature. Maybe now you won't go crying about losing your progress! When you want to erase your file, choose on the file-selection screen. **I gotta warn you, once you erase a file, it's gone forever!**

Now saving. Do not turn off the power or touch the Game Card.

GETTING STARTED

I'M OFF TO TV LAND!

Pick an episode with the TV remote in my room →P12~13, and I'll fly off into a TV show to steal piles of treasure! But watch it, if you get attacked and lose all of my hearts, the game is over. Know what that means? You get to start over from the last place you saved or the beginning of the episode.

CLOBBER ENEMIES TO GET TREASURE!

Surrounded by enemies? Use one of my actions →P16~25 to take the chumps down! Enemies drop coins and gems when they get defeated. You better pick 'em up! And don't even think about walking by a treasure chest without crackin' it open! Unlock it and swipe everything that's inside →P17!

DISGUISES

Every stage is filled with traps and tricky situations that I can get through with my disguises. So when you're stuck, try using different disguises →P18~25. To get more disguises and more powers, you're gonna have to find Guise Gems and Mastery Gems.

BEAT UP BOSSES!

I was THIS close to an awesome treasure, and then this boss shows up! It's a hassle, but you can't beat a stage until you beat that boss down. I'll make my way back to my TV room when you're done. So hang in there! You'll see hints in the lower-left corner of the screen about which disguise you should use, shown as one of the icons from the upper screen. You might wanna pay attention!
