CTR-P-AUNE-00

This software supports  . You can use compatible amiibo™ accessories by touching them to the lower screen of your New Nintendo 3DS or New Nintendo 3DS XL system.

Using near-field communication (NFC), amiibo can connect to compatible software to open brand-new ways to interact with your favorite Nintendo games. For more information, please visit Nintendo's official website at [www.nintendo.com/amiibo](http://www.nintendo.com/amiibo).

- ◆ Only the game data from one software title can be saved on an amiibo at a time. In order to create new game data on an amiibo that has existing data from another game, you must first delete the existing game data. To

delete your game data, open  on the HOME Menu and then reset the data under amiibo Settings.

- ◆ Data stored on amiibo can be read by multiple compatible games.
- ◆ If the data on an amiibo is corrupted and can't be restored, open  on the HOME Menu and then reset the data under amiibo Settings.

Using amiibo with a Nintendo 3DS, Nintendo 3DS XL, or Nintendo 2DS system requires the Nintendo 3DS NFC Reader/Writer accessory.

### Precaution about amiibo

- Just a light touch on the lower screen is enough for the system to detect your amiibo. Do not press the amiibo into the screen or forcefully drag it across the screen.

## Internet Enhancements

This software allows you to connect to the Internet to post your thoughts to Miiverse and play online with other players.

- ◆ Refer to your Operations Manual for information about connecting your system to the Internet.
- ◆ You must go through the initial setup for Miiverse on your system before you can use Miiverse with this game.

This software supports Nintendo Network.

Nintendo Network is the name of Nintendo's network service that enables users to enjoy games and other content via the Internet.

### Protecting Your Privacy

- To protect your privacy, do not give out personal information, such as last name, phone number, birth date, age, school, e-mail, or home address when communicating with others.

- Friend codes are a part of a system that allows you to play with people you know. If you exchange friend codes with strangers, there is a risk you could share information with people you do not know or exchange messages that contain offensive language. We therefore recommend that you do not give your friend codes to people you don't know.

## Parental Controls

You can restrict use of the following features by adjusting the options in Parental Controls.

- ◆ Access to this game (as well as other games) can also be restricted through the **Software Rating** item in Parental Controls.
- ◆ Refer to your Operations Manual for information on how to set up Parental Controls.
- Online Interaction  
Restricts all online matches with other players over the Internet.

## Saving Game Data

Data will be automatically saved at various points during the game, such as when a match ends.

## Deleting Data

To delete save data, press and hold  $\textcircled{A} + \textcircled{B} + \textcircled{X} + \textcircled{Y}$  while the Nintendo 3DS logo is displayed after starting the game.

- ◆ Be careful when deleting data. Once deleted, it cannot be recovered.

Data can be lost due to user action, such as repeatedly powering off and on the system or removing a Game Card or SD Card while saving. Data loss may also be caused by poor connectivity due to dirt or dust in the system's ports. Please be aware that in these cases data cannot be restored.

## Collectible Cards

You can get collection cards by using coins or amiibo cards in the Shop by selecting "Collection" from the main menu. Cards can be viewed from various angles in the Collection Album by moving around your system.

When playing this game, you may have to move the Nintendo 3DS system around. Make sure you have enough room before playing, and hold the system firmly with both hands while playing. Do not move the system with excessive force, as this could cause injuries, damage to the product, or damage to nearby objects.

## Local Play

This game can be played by up to six players in local multiplayer provided each player has one compatible system and version of the software.

### Maximum Number of Players

Soccer	4 players
Baseball	2 players
Tennis	4 players
Golf	4 players
Horse Racing	6 players

### Requirements

Systems: up to six systems

Software: up to six games

## Setup Procedure

Choose the sport to play, and then from the Vs. menu, select With People Nearby. One player will make a room and gather friends. Other players will then join that room.

- ◆ Game rules and settings are set by the player who made the room.
- ◆ The stadiums and courses are determined by the game progress of the player who made the room.

## 10 Online Multiplayer

### Online Play

You can play against people online by connecting to the Internet.

#### Maximum Number of Players

Soccer	Two players
Baseball	Two players
Tennis	Two players (four when playing with friends)
Golf	Four players
Horse Racing	Six players

#### Playing with Friends

Tap With Friends Online in a sport's menu. Follow the on-screen instructions to make a room, and then gather friends and start playing.

- ◆ Game rules and settings are set by the player who made the room.
- ◆ The stadiums and courses are determined by the game progress of the player who made the room.

## Playing with Players Worldwide

Tap With Players Worldwide to test your skills against players from all over the globe.

- ◆ Stadiums and courses played are determined at random.

## Ratings

A player's skill rating starts at 2000. If you get points in multiplayer, your score will go up. If you lose points in multiplayer, your score will go down.

- ◆ Your multiplayer opponents will be players with a similar rating (for soccer, players with the closest distance will be chosen).
- ◆ If the connection fails during play, points for the game up to that point will still affect the player's rating.
- ◆ Golf has no ratings.

## Blacklist

You can blacklist a player after a match in order to avoid being matched up again with that player in the future. To delete your blacklist, tap  on the main menu and tap Delete under Blacklist.

## Send Play Data (SpotPass)

Even when you're not playing, the system can automatically search for and connect to a wireless access point while in Sleep Mode and send your play-data information. This information will be utilized for future product development.

### Activating SpotPass

The first time you play the game, you will be asked whether you want to use the SpotPass™ feature to send certain play data. If you choose Yes, SpotPass will be activated for your system and your play data will be sent.

- ◆ Tap  on the main menu to change Send Play Data to Send or Don't Send.
