4 Introduction

Welcome to amiibo™ tap: Nintendo's Greatest Bits! In this software, you can use amiibo figures to unlock and enjoy playable classic scenes from NES™ and Super NES™ games in three-minute-long bursts.

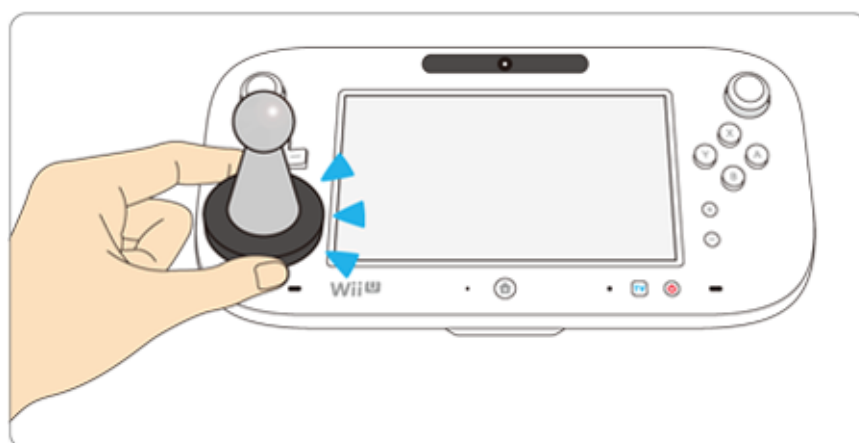

When you tap an amiibo to the NFC touchpoint () on the Wii U GamePad controller for the first time within this software, that amiibo will receive a gift. This gift grants access to scenes from a particular NES or Super NES title.

From then on, whenever you tap that amiibo within this software, a classic scene from the unlocked title will launch. Tap the amiibo again while a classic scene is playing to switch to a different classic scene from that game.

To unlock additional titles, tap different amiibo within the software. Each consecutive amiibo will receive access to a different title as a gift.

- ◆ Please note that gift contents can't be changed.
- ◆ This software does not write any data to your amiibo. Even if your amiibo already contains data for another title, you can use it with this software without erasing any existing data.
